on the

AEOLIAN VOCALION

Take a record from Tristan and Isolde. Play it some evening for your music-loving friends.

With the first notes of the orchestra you will notice a new tone to the music. You are hearing real music for the first time from a phonograph.

Stand at the far end of the room and see how each note of the intricate melody reaches you perfectly.

Step up and take the unchangeable phonograph. But you can never appreciate how beautiful the Aeolian-Vocalion sounds until you actually hear it. A half hour's demonstration will be a revelation to you.

Come in and let us play for you your favorite selections. You can play the instrument yourself if you wish. No obligation will be incurred by a visit.

GET THE APPLE
WORMS AT ONCE

Is the Adjuration of an Expert
of the Agricultural Extension
Department.

(By R. R. Jeffries, Extension Department
College of Agriculture.)

Spray the apple trees immediately after blossoms or petals fall in order the fill each little calyx cup or cavity with poison. About three-fourths of the codling moth worms which hatch from eggs three or four weeks later enter the apples through this cavity. If we succeed in putting a few grains of arsenic in each little calyx cup, the first meal the apple worm takes will be the last one.

Since the calyx cups stand wide open for only a week or ten days, the spray must be applied within this time in order to be effective.

What to use—Commercial lime sulphur at the rate of one and one-half gallons to fifty gallons of water, and arsenate of lead paste at the rate of two and one-half or three pounds or arsenate of lead powdered at the rate of one and one-half pounds to each fifty gallons of spray mixture should be used.

The trees should not be sprayed while in full bloom. Such work would interfere with pollination, without which fruit cannot set, and destroy the fruit grower's best friend, the honey bee. It is safe to spray when two-thirds of the petals have fallen, because the flow of nectar has practically stopped and few, if any, bees will be injured.

This should be the most thorough and drenching spray of the season. A nozzle throwing a rather coarse driving spray with high pressure should be used in order to force the poison down deep into the calyx cups.

Most important spray—This is the most important single spray of the season. It not only controls the first brood larvae of the codling moth, but it also prevents, to a great extent the losses occasioned by the later broods of the pest. It is also an important spray in controlling the plum curculio, canker worm, apple scab, black rot and other less important insect pests and fungous diseases.

Later sprays necessary—The spray should be applied about two or three weeks after the calyx spray. This will be about the time the majority of the first brood codling moth eggs are hatching and if the furthest of the leaves and fruit are thickly peppered with the poisonous spray, many of the worms will be killed by feeding slightly before they reach the blossoms.

Have Charming Hair
Free From Dandruff

Men and Women: Is Your Hair Lustrous, Soft and Abundant.

One bottle of Parisian Sage will prove to any man or woman that dandruff can be banished forever, that there is no need of falling hair and that scalp itch is unnecessary.

It is a delightful, refreshing, invigorating, harmless and inexpensive liquid that every druggist knows about and speaks well of.

But one thing that has especially made Parisian Sage famous is its peculiar power to turn harsh, unattractive hair into luxuriant hair in a short time, and women who desire fascinating hair should not be without it.

Wells & Haymaker Company guarantee it to do just as advertised or money back, and they sell lots of it.—Advertisement.

A Fine Aid For
Mother-to-be

We are all greatly indebted to those who tell their experiences. And among the many things which we read about and are of immediate importance to the expectant mother is a splendid external remedy called "Mother's Friend." This is applied over the muscles of the stomach. It is deeply penetrating in its influence. Mothers everywhere tell of its soothing effect, how it allays pains incident to stretching of cords, ligaments and muscles. They tell of restful comfort, of calm, peaceful nights, an absence of those distresses peculiar to the period of expectancy, relief from morning sickness, no more of that apprehension with which so many young women's minds become burdened. It is a splendid help. Get nearest druggist. Ask your husband to get it for you. Then write to Bradfield Regulator Co., 708 Lamar Bldg., Atlanta, Ga., for a very handsome and instructive book. It is filled with suggestive ideas of great help to all women interested in the subject of maternity. And best of all are some letters from mothers that are real inspirations. Write today.

We can go back half a century for letters from women who used "Mother's Friend." And it was this sort of recommendation that extended its use until today it is sold in almost every drug store in the United States. It is considered a standard remedy and one of the most efficient helps known. Directions for using are very easily complied with and it may be used at any time whenever needed.

Notice is hereby given that, at a meeting of the stockholders of the Bankers Oil Company, a corporation created and organized under the laws of the State of West Virginia, held at the offices of A. W. Burdett, room 401, The Grifton Building and Trust Company Building, in the City of Gratton, Taylor County, and State of West Virginia, on the 6th day of April, 1916, at 2:30 o'clock P. M., the following resolutions were adopted:

Resolved, First, That the Bankers Oil Company, a corporation created and organized under the laws of the State of West Virginia, does hereby discontinue business as a corporation and surrenders to said State its charter and corporate franchises.

The board of directors will proceed to convert the property, choses in action and assets of this corporation into cash and pay off and discharge all its debts, liabilities and obligations; and after fully discharging all such debts, liabilities and obligations, divided the remainder among the stockholders pro rata with their several holdings of stock, but no such payment shall be made in full to any stockholder until after the publication of the notice hereinafter provided.

Resolved, second, That the President of this corporation cause notice of the adoption of the foregoing resolution to be published in some newspaper of general circulation, published near the principal office or place of business of this corporation, once a week for four successive weeks; and that he certify these resolutions to the secretary of state of West Virginia, and deliver to him a certificate showing the publication of said notice, as provided by law.

Given under my hand this 26th day of April, 1916.

JOHN F. CAVENEY,
President of Said Corporation.
THOMAS BROWNING, Secretary.

See Nature at Her Very Best
in Glacier National Park

The most talked-of place in America by out-of-door people is Glacier National Park. It is located in Northwestern Montana, and has within its generous boundaries more of Nature's inspired masterpieces than any similar area in the world.

There are 60 living glaciers in the Park. Blackfoot Glacier alone covering over five square miles. These glaciers feed 250 deep blue or emerald green lakes.

The icy waters of the Park's glacier-fed lakes and streams furnish the angler with any amount of firm-bodied game—rainbow, cut-throat, flat, bull and lake trout.

The Park is a veritable garden, as over 60 varieties of wild flowers are found there, ranging from yellow adder's tongue to gorgeous mountain lilies.

The quarters in the Park are delightful—you have your choice of hotels, chalets or tepee camps. If you "chike" it, you can get along on one dollar a day; other prices are in proportion.

Call at the office; we will talk it over, or if it is more convenient to send in your address on a postcard, do that and you will receive, free of charge, booklets telling of the Park, its accommodations, and the best of going there on the BUR-LINGTON—the Daylight Route, and seeing all there is to see.

R. R. Byrne, Trav. Passer, Agt., C. B. & Q.
R. R. Co., 308 Smithfield St., Pittsburg, Pa.

Some end of the little apples. Since this is also the first important spray against apple blotch, Bordeaux mixture should be used with an arsenate of lead if this disease is prevalent in the orchard.

About eight or nine weeks after the blossom or calyx spray the third application should be made, using the same spray chemicals. This is an important spray against the second brood of the codling moth and lesser apple worm; also the plum curculio, apple blotch and other insect pests and diseases.

Later sprays may be necessary, but under average conditions the work as outlined above, if thoroughly done, should control not only the codling moth but the other more important insect pests and diseases of the orchard.

SOME CASES
ARE DECIDED
BY THE COURT

West Virginia Supreme Court
Hands Down Decisions
at Charleston.

CHARLESTON, May 11.—Four affirmations of the lower courts and as many reversals were included in the opinions rendered Tuesday by the supreme court of appeals. The opinions follow:

Bank against Simpson, from Lewis county, affirmed.

Hinton Milling Company against New River Milling Company, from Summers county, reversed and new trial awarded.

Wilson against Reserve Gas Company and Reserve Gas Company against Wilson, from Lewis county, affirmed.

Balistic against Johnson, from McDowell county, reversed and remanded. George against Norfolk and Western Railway Company, from Mercer county, reversed, verdict set aside and new trial awarded.

Welch Publishing Company against Realty company, from McDowell county, reversed, decree for plaintiff and remanded.

Ihrig against Ihrig, from Tyler county, modified and affirmed.

An appeal was refused in the case from Marshall county of Baltimore and Ohio Railroad Company against the Wheeling Traction Company.

The following cases were submitted on briefs:

Myers Brothers against Harman Brothers, Mason county; Criner against Geary, Roane county; Smith against Johnson, Tucker county; Christian against Railway Company, Greenbrier county; Underwood against Railway Company, Pocahontas county; McClung against McClung, Greenbrier county; and Amos against Angotta, Marion county.

Argued orally: Goff against Goff, Roane county; Board of Education against Board of Trustees, Roane county.

Continuances were granted in the cases of James Sons Company against Hutchinson, Raleigh county; Halstead against Coal Company, Raleigh county, latter case being set for May 16.

NOTICE OF DISSOLUTION.

Notice is hereby given that, at a meeting of the stockholders of the Bankers Oil Company, a corporation created and organized under the laws of the State of West Virginia, held at the offices of A. W. Burdett, room 401, The Grifton Building and Trust Company Building, in the City of Gratton, Taylor County, and State of West Virginia, on the 6th day of April, 1916, at 2:30 o'clock P. M., the following resolutions were adopted:

Resolved, First, That the Bankers Oil Company, a corporation created and organized under the laws of the State of West Virginia, does hereby discontinue business as a corporation and surrenders to said State its charter and corporate franchises.

The board of directors will proceed to convert the property, choses in action and assets of this corporation into cash and pay off and discharge all its debts, liabilities and obligations; and after fully discharging all such debts, liabilities and obligations, divided the remainder among the stockholders pro rata with their several holdings of stock, but no such payment shall be made in full to any stockholder until after the publication of the notice hereinafter provided.

Resolved, second, That the President of this corporation cause notice of the adoption of the foregoing resolution to be published in some newspaper of general circulation, published near the principal office or place of business of this corporation, once a week for four successive weeks; and that he certify these resolutions to the secretary of state of West Virginia, and deliver to him a certificate showing the publication of said notice, as provided by law.

Given under my hand this 26th day of April, 1916.

JOHN F. CAVENEY,
President of Said Corporation.
